

Learn more about colorectal cancer and screening: join our study!

Study: key points to know

Participants will learn more about colorectal cancer, screening, and risk reduction. Eligible participants will be offered colorectal cancer screening at no cost.

What Will Participants be Asked to Do?

- Take part in a no-cost, individual or group, up to 90-minute educational session.
- Fill out pre and post session surveys.
- If within 45-75 years age group and at average risk for colorectal cancer screening, you will be offered the opportunity to receive a colorectal cancer screening kit (FIT) at no charge.
